To Whom It May Concern

This letter acknowledges the excellent support and service provided by Australian Risk Services in the provision of independent plant hazard assessments and safe operating procedures (SOP) for 88 items of plant (textile processing machinery) surplus to CSIRO's needs that were sold recently by public tender. Over the course of 10 or so days Australian Risk Services physically assessed each piece of plant for hazards and conducted research to develop a SOP for each piece. The assessments and SOPs were provided to CSIRO and the successful bidders of each piece of plant.

Yours sincerely,

A handwritten signature in blue ink, appearing to read "Stuart Gordon".

Dr Stuart Gordon
